### Features at a glance

#### Shock Absorbant Hose

Snubber Hose is a shorter piece of hose designed to absorb shock to air couplers from impact tools & air hammers. It helps the hose to lay flat on the ground & prevent tripping hazards.

#### 360° ball swivel Revolving fitting

Revolving fitting extends hose life by preventing excessive hose bending & stress, eliminating kinks in supply lines, reduce maintenance frequency & increase air tool manoeuvrability

#### Polyester braided reinforcement.

High strength polyester braided reinforcement Construction to prevent elongation of hose. Industrial thread and yarn add superior strength with 300 PSI working pressure with 4:1 safety factor.

### Four finger grip bend restrictor

Blubird rubber Air Hose comes with four finger grip bend restrictor which increase the working efficiency of user. It reduce bending stress near the hose-coupling junction & prevent it from kinks.
